The Flag of Freedom Floats Above Our Warships

Whose mission is to protect our shores ---and FIGHT! Everybody is eager to know more about these superb fortresses which guard the nation's honor. We have arranged for our readers to secure for a merely nominal sum a Portfolio Series in ten parts, each containing 16 reproductions of special photographs, 160 in all, each accompanied by Explanatory Text, in which are described the vessel's armor, guns, engines, power, etc. In short, the very information wanted for a full understanding of the fighting and maneuvers of the fleets and single vessels. But this is NOT ALL you get out of the Portfolio Series for the islands which the ships will protect will receive their share of attention, and the reader feels on turning the last leaf that he has had Cuba illustrated in a manner to enable him to judge of the island's past and present. But he does not stop here, as considerable space in the series is devoted to another island realm which we may own someday. In some of the parts he finds Hawaii portrayed and everything explained which an American needs to investigate.

How to Get Them

Fill out legibly the coupon below, stating how many you wish and bring or send it to the THE BEE with your order. It will be more convenient to send \$1.00 at once, as you can thereby avoid the bother of waiting and incurring a time for each issue. They will be sent to any point in the United States, Canada or Mexico, postpaid.

THE SERIES COMPLETES

No. 21 The Hawaiian Islands	No. 26 The Hawaiian Islands
No. 22 The American Navy	No. 27 Cuba and the Wrecked Maine
No. 23 The American Navy	No. 28 The Hawaiian Islands
No. 24 The Hawaiian Islands	No. 29 Cuba
No. 25 The "Maine"	No. 30 The Hawaiian Islands

ONE FOR A DIME--TEN FOR A DOLLAR

THE BEE will please send to the undersigned reader the following PORTFOLIOS:

No. for which \$..... is inclosed.

Name.....

City.....State.....Street.....

We will give two Portfolios, any number you may select, for each new paid subscriber to The Bee for one year.

GOSSIP FROM THE CAMP.

The Soldiers at Chickamauga Park Praying for a Hard Down-pour of Rain.

THE DUST IS BECOMING INTOLERABLE.

A Movement on Foot to Induce the President to Pay a Visit to the Camp on the Fourth of July--The Letter Hospital Ready for Opening--The Men Settling Down for a Summer's Work.

CHICKAMAUGA NATIONAL PARK, Tenn., June 8.—The usual hard drills and maneuvers are employing the various regiments of Gen. Brooke's big volunteer army. The temperature continues high, but it is again relieved somewhat by a steady breeze. What the whole army is now praying for is a hard downpour of rain. The dust is increasing daily, and unless rain soon comes it will become an almost unbearable nuisance. Thousands of horses and wagons constantly moving along the park roads and the long dry spell have combined to make this nuisance the worst, and in fact the only considerable one with which the army has to contend.

Gov. Bradley and staff of Kentucky are here, and Gov. Hastings of Kentucky, with his staff, is scheduled to arrive Saturday.

A movement is now on foot to have President McKinley, and such of his cabinet officers as can accompany him, inspect the park army on the Fourth of July. A formal invitation will be extended, and the president will be urged to accept. If the invitation is accepted, the president and his party will be elaborately entertained by the city and the park.

The letter hospital will probably be opened Thursday. All the most serious cases will at once be transferred to it. The place is an ideal one and the army patients will enjoy every comfort in it.

A large number of the volunteers are still suffering with sore arms on account of the vaccination.

The men of the First Missouri were uniformed Tuesday, and will be fully armed and equipped by Friday night.

The First Mississippi will be the next regiment uniformed and equipped.

The Eighth Massachusetts is being inspected by Maj. Slocum, U. S. A. Brig.-Gen. John A. Wiley, of Pennsylvania, who arrived Tuesday night, has reported to Gen. Brooke at headquarters.

A number of new wells are being drilled in various portions of the park. The supply of drinking water is now ample, and the pipe lines furnish an abundant amount for other purposes.

Gen. Brooke has issued an order forbidding hucksters and peddlers going through the park. The order has gone into effect, and the change is very noticeable. Hundreds of wagons have been going from camp to camp selling inferior stuff of various kinds, and a number have been making small fortunes off the soldiers.

The First Ohio cavalry has been ordered to discontinue preparations for departure. It has been understood for several days that this regiment would move on Sunday.

The reason for the change in orders is not apparent.

A number of regiments are scheduled to arrive during the next few days. The First Kentucky is due now.

The plan of transferring the army or any part of it is about at an end, and the men are settling down for the summer.

ADMITTED SPANISH LOSSES.

News Received in Havana from Santiago de Cuba of Losses to Monday's Bombardment.

HAVANA, June 8.—Details from Spanish sources at Santiago de Cuba have been received here of the Spanish losses during the bombardment of the fortress by the American fleet on Monday.

The "maelstrom" killed on board the Reina Mercedes was former Capt. Emilio Acosta Eyzaguirre, Escriba Alencar, who was killed by Reina Mercedes, was killed. Col. Ordaz, of the artillery, and inventor of the cannon bearing his name, was slightly wounded. Some other officers and soldiers were killed or wounded.

The insurgents dynamited a passenger train near Cunas, province of Pinar del Rio, overthrowing one car and demolishing the train.

CRUISER VIZCAYA DAMAGED.

A Shot From the Brooklyn Sailed to Have Damaged the Spanish Cruiser and Wounded Several of Her Crew.

NEW YORK, June 8.—A special from Kingston, Jamaica, reports that the Spanish cruiser Vizcaya was badly damaged during the bombardment of Santiago de Cuba on Monday. A shell from the Brooklyn is said to have burst under the Vizcaya's port quarter, dismounting a gun, injuring the cruiser's rudder and wounding several of her sailors.

Death of Judge Grinnell at Chicago. CHICAGO, June 8.—Judge Julius P. Grinnell died suddenly at the Illinois Trust and Savings bank. Judge Grinnell was famous for the record he made as a fearless public servant, particularly as state's attorney during the prosecution of the Haymarket anarchists.

FORWARD MOVE TO SANTIAGO.

The Army of Invasion Said to Have Left Tampa for Key West, Thence to Santiago.

ST. LOUIS, June 8.—A special to the Post-Dispatch from Washington says: WASHINGTON, June 8.—It is "on to Santiago" in earnest, as transports with troops left Tampa at high tide. Others will get away during the day, and by daylight Thursday the army of invasion will be in rendezvous at Key West. From there they will proceed immediately to or near Santiago.

Adjt.-Gen. Corbin, Tuesday night, sent to Gen. Miles the final orders for Gen. Shafter, who commands the army of invasion.

Following are the troops, all regiments, that he will take with him: Cavalry—First, Second, Third, Fifth, Sixth, Ninth and Tenth regiments.

Infantry—First, Second, Third, Fourth, Sixth, Eighth, Ninth, Tenth, Twelfth, Thirteenth, Sixteenth, Seventeenth, Twentieth, Twenty-first, Twenty-second, Twenty-fourth and Twenty-fifth regiments.

Artillery—Batteries E and K, First artillery; A and F, Second artillery; C and P, Third artillery; B, F, G and H, Fourth artillery; I, P, K and M, Fifth artillery.

The engineer battalion and a balloon corps form part of the expedition. The heavy train of artillery is under command of Maj. S. S. Mills of the Sixth artillery.

Physically, the command will compare with any troops in the world. All are armed with the Krag-Jorgensen magazine rifles.

Three days will be consumed on the voyage, assuming that an average

Spanish Cruiser Vizcaya, Damaged in the Bombardment at Santiago.

speed of ten knots an hour is made. Some of the transports can make much better. It is probable that the men-of-war will keep the fleet in close order. A higher rate of speed may prove impracticable.

The president hopes to receive decisive intelligence of the landing of the expedition on Sunday night.

WHY PINKERTON WAS THERE.

The Detective Visited Washington to Arrange the Government that He was Not in the Employment of Spain.

WASHINGTON, June 8.—In reference to the repeated assertions that Wm. A. Pinkerton, of Chicago, had been in Washington to confer with the war and navy departments, in reference to spies in this country, it is authoritatively stated that the detective had selected a place where there is a strong wharf upon which the vessels may discharge the heavy siege train directly, the publication of that fact, if authenticated, would naturally lead the Spaniards to destroy that particular wharf, and thus seriously hamper the operations of the troops.

Careful inquiry at the war department, where the computation as to the movements of troops might naturally be expected, developed the fact that no word had yet come of the departure of a military expedition from Tampa. As the troops are under orders to go to the front as soon as they can be made ready, without further direction from the department, it is deemed probable that they will get off some time during the day, and that notice of that effect will be the next received at the department.

No word from Admiral Sampson was received at the navy department. The bulletin made public by the department Tuesday night, in confirmation of the press reports of attack on Santiago last Monday, is believed to be merely a skeleton statement of Admiral Sampson's telegram, which it is surmised contained a good deal more information than it was deemed prudent to make public. Of course, to protect the naval cipher the matter published was a paraphrase, and the term used in the bulletin, "Silenced the works quickly without injury at any time," was based upon a statement in the original dispatch, broad enough to indicate that the ships had sustained no injuries, and that there had been no casualties among the personnel of the American fleet.

Naval officers expressed the belief that about all of the force landed Monday from Sampson's fleet were marines, and that their purpose was not so much to take military possession of the landing as perhaps, to spike some guns and destroy some batteries that might have been reoccupied by the Spaniards to advantage after the retirement of the American fleet from the action. One object of Admiral Sampson's attack, which has escaped general observation, although exceedingly important, was pointed out at the navy department. This was to prevent the Spaniards from making a successful attempt to remove the obstruction of the channel caused by the wreck of the Merrimac. Having silenced the forts at the entrance of the harbor, which, while effective, obliged the Americans to keep some guns at range of their guns. Sampson will now be able to place one or more of his ships close to the mouth of the bottle, where it will lie in comparative safety, and yet be able to command easily with its guns the wreck of the Merrimac.

Only about one-third the output of coal is available.

PHILIPPINES TRANSPORTS.

Assistant Secretary Melickjohn Securing Transport Vessels by Charter or Imprecation.

WASHINGTON, June 8.—Assistant Secretary Melickjohn has chartered the steamships Indiana, Morgan City and City of Tara for transports of troops to the Philippines; has closed a contract for the Victoria, Olympia and Arizona, of the Northern Pacific line; has secured the privilege of acquiring the Tacoma and the Columbia, if needed— all five on condition that they be given an American register. He also has ordered that on Saturday night the look-out on water gauge with fine men which she was towing.

Death of Judge Grinnell at Chicago. CHICAGO, June 8.—Judge Julius P. Grinnell died suddenly at the Illinois Trust and Savings bank. Judge Grinnell was famous for the record he made as a fearless public servant, particularly as state's attorney during the prosecution of the Haymarket anarchists.

A Good Cause for Rejoicing. DUBUQUE, N. C., June 8.—President Kiyo of Trinity college has just announced the gift of \$100,000 to the endowment fund of the college by Washington Duke. Mr. Duke has given in all \$350,000 to Trinity college. There is great rejoicing among the students and faculty.

Seventeen thousand men are ready at Jacksonville and Tampa to proceed to Porto Rico. Nearly all the transports have been provided and the movement will soon be under way. San Juan will be the first point of

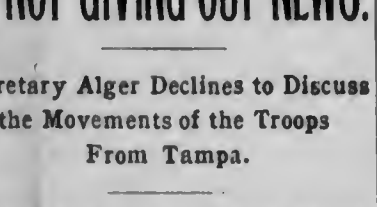

THE CHRISTIAN SOLDIER.

Annual Meeting of the Congregational Home Missionary Society at Cleveland, O.

ANNUAL ADDRESS BY GEN. O. O. HOWARD.

"War, Arbitration and the New Demand for American Home Missions." His Subject—Annual Meeting of the Woman's Department, an Important Auxiliary, Also Held.

CLEVELAND, O., June 8.—At the second session of the seventy-second annual meeting of the Congregational Home Missionary society the president, Gen. O. O. Howard, delivered his annual address. His subject was "War, Arbitration and the New Demand for American Home Missions." He spoke in part as follows:

MAJ. GEN. O. O. HOWARD, RETIRED.

His Lord has his own way of leading men. He has led our people and our president in a way they did not dream of step by step, to face new difficulties and new problems. He is requiring as he did in the days of slavery, to remove obstacles out of his path. The obstacles that have now come to the front are centuries of extortion, murder, assassination, the slaying of hundreds of thousands of innocent people by slow starvation and war, and a tyrannical government which no man can describe.

We wanted to do all things by peaceful methods. We wanted to expand our influence from men to men and nation to nation by every element of peace and good will. We wanted to think that the Gospel properly proclaimed and sufficiently proclaimed, would compel all the nations of the world to accept of the reformation of nations. Arbitration was set upon as something that would ease all wars to cease, and all bloodshed and cruelty resulting therefrom. We looked at our own supreme court. We saw how difficult it was to get any nation to accept of arbitration. We saw how difficult it was to get any nation to accept of arbitration. We saw how difficult it was to get any nation to accept of arbitration.

MAJ. GEN. O. O. HOWARD, RETIRED. His Lord has his own way of leading men. We wanted to do all things by peaceful methods. We wanted to expand our influence from men to men and nation to nation by every element of peace and good will. We wanted to think that the Gospel properly proclaimed and sufficiently proclaimed, would compel all the nations of the world to accept of the reformation of nations. Arbitration was set upon as something that would ease all wars to cease, and all bloodshed and cruelty resulting therefrom. We looked at our own supreme court. We saw how difficult it was to get any nation to accept of arbitration. We saw how difficult it was to get any nation to accept of arbitration. We saw how difficult it was to get any nation to accept of arbitration.

THURSDAY, JUNE 9, 1898.

The London Financial News says, in writing of the world's coal supply, "Coal is always a burning question." Well, it depends upon the coal. If Lexington coal is meant it is a true proposition.

The Boston Journal of Commerce is of opinion that the demand for cotton manufactures in countries that will be opened to American trade by the war will be very great, and think work on new mills and extensions should be pushed to "be ready for the great prosperity when it comes."

NINETY-FOUR "Terrors" from the Arizona mountains have gone towards Cuba to act as expert packers for Uncle Sam's mule trains in Cuba. Their coach bore the inscription "The Real Terrors of Arizona." "Teddy Ain't in It." The company is a singular mixture of Americans, Indians, Mulattoes and Mexicans. All are expert frontiersmen. The episode is a commentary on the resourcefulness of this country.

STRONG efforts are being put forth by the leading business men of the United States to bring about the use abroad of Indian corn as a substitute for wheat. It is thought that the present time, when there is such great difference of price in favor of corn, is most propitious for the success of the movement. A large increased foreign demand for our corn is the best commercial advance the country could hope for.

One "high-minded and chivalrous" Spaniard has developed in the person of the corked-up Admiral Cervera, who has treated with magnanimity Naval Constructors Hobson and his crew, and spared their lives in recognition of their wonderful bravery in blocking the Santiago harbor by sinking the Merrimac under them after going through a terrific fire from the Spanish forts. The American navy and people give full recognition to the magnanimous act and Cervera's name will find a place in history.

ADMIRAL DEWEY and his men by their wonderful achievement at Manila, Admiral Sampson's men by their volunteering to a man for extra hazardous duty at Santiago, and Naval Constructors Hobson and his seven invincible volunteers who steered the Merrimac through storm of shot and shell, sank her in the harbor channel and got off alive, these have taught the Spaniards something of American valor. If they do not sue for peace they will be taught more of the same lesson, even on their own side of the Atlantic.

ONE of the Merrimac's intrepid crew said before the trip to sink that vessel in the Santiago channel, "Oh, I guess we stand a fair show of getting out, but they can't stop us going in." No others talked of coming out.

The secret of such heroism as this lies in the fact that not one man in Uncle Sam's army and navy are conscripts. All are volunteers. Practically all the men under Admiral Sampson volunteered to do this work for which only seven were needed.

Such valor knows no defeat.

The Goebel Election Law Unconstitutional.

The following very able argument, showing the unconstitutionality of the Goebel Election Law, was written by Judge M. C. Givens, of Henderson, that able jurist and well known Democrat, and was published first by the Henderson Journal, which paper only "hopes that his views on the constitutionality of the law are erroneous."

The Bee takes pleasure in reproducing Judge Givens' review of the Election Law and recom-

mends it to the careful perusal of the voters of Kentucky.

It is in full, as follows:
The concern of the people of Kentucky about this Goebel election bill should be no less than about the Constitution of the State itself. However much men may differ as to the intrinsic merits of this bill, all must agree that if it conflicts with the constitution it should be annulled by the courts as soon as may be.

To show that it does conflict with the Constitution of the State is the object of this short article.
In the outset I shall assume that the General Assembly has no power to create or fill an office except as it derives that power or authority from the Constitution of the State. Section 1 of the Goebel Bill is as follows: "The General Assembly shall at its present session elect three commissioners who shall be styled the State Board of Election Commissioners. They shall hold office for a term of four years, and till their successors are elected and qualified." * * * If a vacancy or vacancies occur while the General Assembly is in vacation the same shall be filled by the remaining member or members of the board.

Three distinct and vital constitutional questions necessarily grow out of this bill and the election held under its provisions. The first question is: Can the Legislature create these State offices? Assuming that it may create them, the second question is: Can that body also fill those offices by an election? And assuming that the Legislature may both create these offices and fill them by an election, the third question is: Has there in fact been a valid election under the Constitution and this act of the General Assembly?

First—Has the Legislature the constitutional power to create these State offices? After creating all the State offices desired or intended, and all district and county offices intended to be permanent, Section 107 of the State Constitution makes this provision: "The General Assembly may provide for the election or appointment for a term not exceeding four years of such other county and district ministerial and executive officers as may from time to time be necessary."

This section of the Constitution distinctly limits the power of the General Assembly and confines it to creating county and district offices of a special kind. To argue in favor of the constitutionality of the Goebel bill, one has to assume that the General Assembly is under no constitutional restraint as to the creation of new State offices. This proposition, I am persuaded, no one will willingly assume, and need not here be further noticed. Comment can add nothing to the plain meaning of this section of the Constitution. It speaks for itself and needs no interpretation. If its meaning is not plainly manifest it would be useless to try to find out its meaning by any species of argument.

But assuming that the General Assembly may create State and other offices, it does not necessarily follow that it may also fill the offices thus created by election or appointment. Section 107 of the Constitution says the General Assembly provide for the election or appointment of county and district officers.

Provide how? Not by a special law, certainly, for that is expressly forbidden by sub section 20 of section 50 of the Constitution. Again, section 148 of the Constitution provides that all state, district and county officers shall be elected on the first Tuesday after the first Monday in November. The Legislature can not be in session on that day, so it could not have been contemplated by the framers of the constitution, that any State District or County officers should in any event be elected by the Legislature.

To provide for the election to fill newly created offices, can only mean to provide for their election by the people at the regular elections as provided in the Constitution. A special election of or for a State officer can not be provided for by the General Assembly other than on the regular election day. The first Tuesday after the first Monday in November, except in a case of a vacancy in one or the other house of the General Assembly, as is specially provided for in the Constitution. The time at which State and other officers are required to be elected, and the further fact that the Legislature cannot enact a special law on the subject of elections, or fix any other day precludes absolutely the idea of that body having been entrusted with the duty or power of electing State or other officers in any event whatever.

If we will consider the limited time the General Assembly is allowed to sit, with its many other important and imperative duties to perform, the same conclusion is reached, that the election of State, county or district officers is no part of its powers nor duties.

Again, looking at many positive restrictions placed upon the General Assembly by the Constitution, shows clearly that the people aimed to restrict rather than enlarge its powers in that direction. It will not allow that body to meet oftener than once in two years, and then not to remain together longer than sixty days under any pretense whatever. Its powers to enact laws was greatly abridged. It was limited in its election of pages and janitors. Its power to elect a United States Senator would certainly have been taken away if it had been within the power of the people to have done so.

Can it be, that while the people of Kentucky were not willing to give the General Assembly discretionary power in the election of its pages and janitors for a period of sixty days, with powers only to carry bundles and sweep halls, they supposed that they were by implication, conferring on the same General Assembly unlimited power to create this great army of (360) officers with unlimited powers over the election of the State, and all beyond the reach of the people? Such a suggestion is a libel on the good sense of the people of Kentucky.

Third—But assuming that the General Assembly may create and fill these offices by election, has it in fact done so as provided in the act itself?
This act says these election commissioners shall be elected by the present General Assembly. Now what is the General Assembly? What does it take to constitute a General Assembly? There can certainly be no division of opinion on this question. The Constitution creates and defines the General Assembly. Section 29 says—"The legislative power shall be vested in a House of Representatives and a Senate which together shall be styled the General Assembly of the State of Kentucky." Every reference in the Constitution to the General Assembly recognizes it as being composed of two distinct houses, so there can be no question, but it takes the two distinct houses to constitute a General Assembly.

Wonderful Cure

Spinal Disease the Result of a Fall—Abscesses Formed.

Kentucky Clergyman Reports What Hood's Sarsaparilla Did.
The character of the people who testify to the merits of Hood's Sarsaparilla is worthy of consideration. Read what a Kentucky clergyman says:
"When our little girl was 3 years old she fell from a loft and strained her spine. Since then she has been subject to spinal disease, and lost the use of her limbs. She was very delicate and did not have much appetite, and abscesses formed on the right side of her spine, which discharged continually and she was obliged to lie on her right side all the time. We procured a bottle of Hood's Sarsaparilla and she began taking it. The first effect was to give her an appetite and enable her to sleep. She continued taking it, and now she is a healthy child with the exception of her deformity." REV. B. S. WARD, Chaplain, Kentucky.

Hood's Sarsaparilla
Is the best in fact the One True Blood Purifier.
Hood's Pills cure nausea, indigestion, biliousness. Price 50c.

When these two bodies cease to be separate bodies they cease to be the General Assembly. The Goebel bill requires these State Election Commissioners to be elected by the General Assembly, not by a joint Assembly.

For the General Assembly to do any valid act there must be a vote of both houses separately. Section 88 of the Constitution, provides that no bill shall become a law till it has been presented to the governor and by him approved or being disapproved is passed over his objections. Section 89 is as follows: "Every order, vote or resolution in which the concurrence of both houses may be necessary, except questions of adjournment or as otherwise provided in this Constitution shall be presented to the governor and before it takes effect be approved by him or being disapproved passed as a bill is passed over his objections."

The General Assembly did not elect nor did it attempt to elect these Commissioners by order, vote or resolution. The General Assembly did attempt to do so by resolving itself into a joint Assembly, and voting for them as a joint and not as a General Assembly. Now when comes this joint Assembly and what are its powers and duties? By virtue of what provision of the Constitution does it exist? It looks as if those having this matter in charge, seeing that if the election was had by the General Assembly the governor might not approve it, in which event there was not time to pass the vote over his objections. It was, therefore, resolved that the General Assembly should be transformed into a joint Assembly for the purpose of evading this plain provision of the Constitution as well as the provisions of the act under and by virtue of which the bill was held. So the Goebel bill itself, is not only in plain violation of the Constitution, but the election, as held, was in violation of the plain provisions of the Constitution and of the bill itself. The election was not held by the General Assembly. But if it be, that a joint Assembly and the General Assembly be the same, then under the plain provision of Section 89 of the Constitution, the vote of the joint Assembly should have been presented to the governor for his approval or disapproval, but this was not done.

It is to be hoped that this question may be brought before and fairly presented to the Court of Appeals as soon as may be. A matter of such great moment to the people and the State ought not to be held in suspense. If the act be valid or invalid it should be settled without delay.

M. C. GIVENS.

"Crops."

From Bradstreet's.

The general business situation might well be expressed by the single word "crops." Certainly the very flattering outlook reported in nearly all the grain-growing sections of the country, and particularly as regards the growing wheat, that of a large acreage, extremely good weather and crop conditions already foreshadowing an unprecedented production of the king of cereals. With the steady and favorable progress moving toward a large wheat yield has come the final culmination of the May wheat deal and a considerable quieting down of speculative fever and prices. The close of the week witnesses an immense shrinkage in the price paid for cash wheat as compared with a short time ago, partly the result, of course, of former high prices, inducing a freer movement of reserve wheat stocks into sight not only at home but abroad. That the ultimate effect of the decline has been beneficial rather than otherwise, however, is evident by the increased inquiry of exporters for wheat and corn, and the total movement for the week is a record breaking one for this period of the year. Accompanying the decline in wheat have been sympathetic decreases in oats and flour, but corn is steady and even higher, partly because of some complaint as to the crop outlook but largely owing to improved export demand.

Tobacco.

Reports from all the barley and dark tobacco sections to the West-Territory Tobacco Journal indicate that despite unfavorable conditions earlier in the season the bulk of the crop has nearly everywhere been set earlier than is usual, and, in most cases, under auspicious circumstances. The general report is that there is an abundance of plants, and in many sections enough to set far more than the intended acreage. Reports from barley sections are very encouraging. Probably from 50 to 80 per cent. of the entire crop has been set and is starting out well. The blue-grass counties are more advanced than others, but it is believed that rains elsewhere at the close of the week have helped to even up matters.

Mrs. Browder Myers, of Nashville, is visiting relatives in this city, this week.

LOCOMOTIVE BLASTS.

In its railroad equipment, the United States leads all other countries. Not one of the mighty nations of the east could gather together the transport to strategic points a vast army without interrupting business, as has done the United States. Even England, with its wealth and magnificence, would have been forced to stop traffic for mercantile enterprises, while its army was being carried to points of mobilization.

In the United States there was not a jar in the regular schedule of railroad freightage. The vast iron network gathered men from every nook and corner of the republic and buried them on, dodging through the ponderous trains of merchandise, toward the south. The railroads of the United States stand at the head of the progressive age in Louisville. Commercial.

Curtis Lane has recovered from his long illness sufficiently to go Dawson where he is now improving rapidly under the influence of the waters of Dawson Springs.

The Illinois Central people are publishing notices of their next annual meeting of stockholders at Chicago, Wednesday, September 25, 1898, at noon. This company offers special inducements to their stockholders to attend the annual meetings by extending to them the special courtesy of a free ticket to Chicago and return to be used within four days before the meeting and on that day. The tickets are issued from the president's office at Chicago upon written application of stockholder, describing his stock. Only one ticket is allowed for any one holding of stock. Many of C. employees are stockholders in the company.

The well wishers of the L. & N. are glad to see that this company receive their full share of the patronage from the United States government. A day seldom goes by without a government train passing over the Henderson division, and we are inclined to think the safe and prompt manner in which the trains are handled has something to do with it.

Conductor Will Carot has been placed on the extra list as a passenger conductor, and his many friends are pleased to see him promoted.

Last Sunday we had a very pleasant call from Engineer Kluesmeyer, who formerly was one of the best engineers on the Henderson division. He was on his way home from Louisville, where he had been a delegate to the B. of L. E. Convention which is held every two years. He says the order is in a prosperous condition and that he is looking forward to the next year. Temperance is receiving marked attention and this order is destined to take the lead in this grand move. Experience and observation has shown them that a clear head is needed at all times by engineers. Then, again, he says it has become a "long" charitable institution, over 15,000 having been expended during the past two years for that purpose. The question of federation with other orders received much attention and was defeated only by a small vote when final action was taken.

Several trains of Tennessee soldiers will pass through here this week enroute West for the Philippine Islands.

One of the loveliest men we have seen of late was Dispatcher Woodruff, when he saw that new horse purchased for him by John T. Barnett, of this place. It was a fine animal and so gentle that Dave had reasons to rejoice.

Supervisor Sullivan is now receiving new steel rails for several miles of track near Henderson, which will soon be laid.

Operator Fawcett has returned from a brief visit to relatives at Guthrie and vicinity.

Mr. M. E. Ingalls, president of the Chesapeake and Ohio Railway Co., in a letter to the Henderson "Record," says: "I have read the article 'A Nation Born in a Day' with great interest. I quite agree with everything you have said. I have no doubt that the nation born in a day is a very real thing, and it is not anything so unnecessary and uncalled for. At the same time I can see out of it will come great prosperity, and there is great hope for our country. We are getting into a very bad condition politically. It was possible for demagogues to howl and rant, and they seemed to interest the common people. They were foolish enough to think that war was their opportunity. I believe the result will be they will be pushed to the rear and the common people will have their thoughts turned into other channels. Take, for instance, the matter of school books in the South, and in fact in the North; our children ten years from today will be taught about the terrible oppression of England and the way we whipped them in 1775 at Bunker Hill, not will the children in South Carolina be taught the enormities committed by Northern soldiers in 1862 and 1863 in the South. They will rather be reading the victory of Dewey, and I hope some others will say 'yes' before the light is over. Out of it will come great good."

The Brave at Home.

The maid who binds her warrior's shawl with smile that well her pain dissembles. The while beneath her drooping lash One starry tear-drop hangs and trembles. Though heaven alone records the tear, And fane shall never know her story, If e'er bedewed the field of glory!

The wife who girds her husband's sword 'Mid little ones who weep or wonder, And bravely speaks the cheering word, What thought her heart be rent asunder, Doomed to die before the fight is over. Got of it will come great good."

The Indian Head Cotton Mills, at Cordova, Ala., have made their first shipment, on the four year's contract, to China. It is the largest shipment ever made from the state.

Did You Take Scott's Emulsion

through the winter? If so, we are sure it quieted your cough, healed the rawness in your throat, increased your weight, gave you more color, and made you feel better in every way. But perhaps your cough has come back again, or you are getting a little thin and pale.

Then, why not continue the same helpful remedy right through the summer? It will do you as much good as when the weather is cold.

Its persistent use will certainly give you a better appetite and a stronger digestion.

It will cure your weak throat and heal your inflamed lungs. It will cure every case of consumption, when a cure is possible.

Don't be persuaded to take something they say is just as good.

All Druggists, etc., and S. C. SCOTT & BOWNE, Chemists, N. Y.

A WAR SONG.

To arm! To arm! the eagle screams. The bugle sounds the call. The roar of battle's on the breeze. Our gallant navy plows the seas. We're ready, one and all!

A Spanish spirit fills the land And mounts upon the gate. Our flying squadrons furrow ride Upon the ocean, deep and wide. Burcharged with iron hail!

The stars and stripes our oftland, The Maine our battleship. We'll sweep across our shipmate's death, Spain excrete at every breath And fight her till we die!

We'll arbitrate with cannon balls, Teach rapine to retreat. O'erturn by force of arm the wrong. In God our trust, in Justice strong, Till liberty obtain!

We'll double each bow-bellows gun And tinge the oceans red, Rain down upon Spain's vanquished fleet An avalanche of iron sleds And pave their decks with dead.

As bravely speed our gallant tars Across the raging sea, We'll sweep upon the Spanish main, Annihilate the hordes of Spain And set poor Cuba free!

—David James Evans.

The Church and the Congregation.
In the midst of every Christian church, congregation begins with a capital C and church with a small c. Nothing is needed so much just at present as to teach them the reverse of this distinction. The church is the greater thing and the congregation many times the lesser. The one is the whole of which the other is but a part, and a part should never seem greater than the whole.—Lutheran.

An Unfortunate.
The man who has nothing to do is unfortunate. We were made to work. For that reason there is joy in toils. Our reward is not measured by the pay we receive. Our satisfaction is in the success we have in beholding the results of our endeavors. In the church the same rule holds. Some good people are spending for want of good works. Their spiritual languish unless it receives its strength in the service of the Lord. Spiritual achievement and spiritual vigor go hand in hand.—Reformed Church Messenger.

DOWN IN THE MINES.

Only about one-third the output of coal is anthracite.

Now the report is in circulation that there are rich gold mines in the Philippines Islands.

The commercial value of silver mined in the United States during the year 1897 is said to be \$34,074,292.

In Great Britain 728,713 persons are employed in coal mines and last year the total fatalities are 630.

The total production of bituminous coal in the United States for the year 1897 was 120,468,659.

Secretary Jones, of the Co-operative Coal Company, was re-elected to the position of secretary, at the recent annual meeting.

A number of coal operators in the East contemplate the building of a railroad to carry water in New York harbor for the purpose of shipping anthracite coal to that point.

Elgie Umstead has been added to the St. Bernard mechanical force, and with the experience he has had at the Madisonville Foundry he should and will no doubt make a good man.

Cap. Lee Stull, who has charge of the mine near Nortonville has concluded that with a dull summer trade starting them in the face, it would be better to shut down, so at present the mine is idle.

Mr. Lem Owens, who, for the past few months has been in New Mexico mining coal, returned home last Saturday. We understand wages there are good, but hard high, and the fact is that old Kentucky still takes the lead in wages when the cost of living is taken into consideration.

Superintendent Harris, of the South Diamond mine is not so rushed now but what he finds time to take a few hours rest, and while it is true there is a natural lull in the coal business at this season of the year, for the past year or two, Mr. Harris has been a hard-working man, so great was the rush of coal orders there.

Kumor says that the labor agitator has succeeded in convincing a portion of the miners at the Carbonade mine that it was their duty to become members of the United Mine Workers. We are told they have quit mining coal at that place, the operator taking the view that he must run his mine regardless of outside interference.

The Pennsylvania Railroad Co. has determined to increase the carrying capacity of its cars, and it is announced that in the contract recently given to the Schoen Pressed Steel Co. for 100 steel cars the specifications require each to be of a capacity of 100,000 pounds. Prior to this time 80,000 pounds, or forty short tons, have been considered the maximum capacity, while most of the rolling stock for coal hauling does not average over 55,000 pounds. The employment of steel, however, allows greater space for the load while the supports and framework, being of metal, is less bulky than wood. The result is economy of space and much greater strength, which allows the carrying of much heavier weight.

Pennsylvania parties have become interested in coal lands in Clay county, and a correspondent of the "Manufacturers' Record" at Charleston, W. Va., states that they may purchase about 100,000 acres in coal and timber lands in this section of the county. The property is located near Clay C. H., and adjacent to the Charleston, Clendenin & Sutton Railroad.

The importance of the coal-mining industry in this State is shown by the last annual report of the State mine inspector. It shows that coal is mined on a commercial scale in twenty of the fifty-five counties of the State. Two hundred and fifteen firms are operating mines. Total number of tons of coal from commercial mines for the year, 1,571,900; estimated tons from small mines, 1,519,292; for 1896, 1,250,000; an increase of 899,292. Number of tons of coke manufactured, 1,374,497. Total values of coal at the mines for the year, \$8,229,108; total values of coke at the mines, \$1,718,121.25 for 1897.

A recently invented device for miners will no doubt result in lessening the loss of life. It is designed to render the miners immune from the deadly effects of carbonic oxide in the after-damp which follows gas explosions in mines. It is a helmet which will enable the wearer to live for at least an hour after such an explosion takes place. It is worn over the head and face, and is constructed of a special asbestos lined leather or cloth, rendering it proof against fire, heat, steam, boiling water and all poisonous gases. It comes down close over the shoulders and is held firmly in place by means of two straps, passing under the arms. At the back of the helmet is a metal reservoir, from which the wearer is supplied with fresh air at the natural air pressure, and 20 degrees cooler than the outside atmosphere.

The tank of air in it can be seen on the gauge attached to the reservoir, which can be quickly charged by an air pump. A lever on the top of the reservoir forces the air through the supply tubes to a point inside and directly in front of the mouth and nostrils. The supply can be adjusted to the comfort of the wearer. The neck gear has an outlet for the foul air, and the two lookouts are constructed of double plates of clear mica, with revolving cleaners, and protected by four cross wires. The side or ear flaps have special diaphragms, or soundings discs, which give perfectly distinct hearing.

LOCAL NEWS.

"I'd like to be a warship!" said the spinster as she scanned the columns of the paper,—"for a warship to well manned."—L. A. W. Bulletin

Mr. McNeil Bond and family, of Nashville, have been visiting the family of Mr. J. F. Foard, at Hecla.

Mrs. Ray McDonald, who has been ill for some time, is still very low. She has many friends who hope for her recovery.

Rev. Elijah Timmons, of Mayfield, stopped over here Monday night enroute to Webster county to visit relatives and friends.

Wat Nisbet, a highly gifted knight of the brush of Madisonville, has treated the residence of Denny Herrigan to a full dose of variegated lead and oil.

Mr. Howard White, Jr., left Wednesday morning for a three-weeks' visit to relatives in and about Philadelphia, his home before taking up his abode in our city.

Dr. Geo. J. Gooch, of Empire, Ky., who formerly resided in our city, made this office a pleasant call Saturday. We are always glad to see the jolly, good-natured doctor.

Mr. C. M. Hihbs, of Providence, came up to our city Wednesday to meet his little boy who has been attending the local and dumb institute at Danville, and has come home to spend vacation.

The sympathy of the entire community is extended to Mr. and Mrs. H. S. Corey in the loss of their baby boy, born last Saturday morning and which lived but a short time afterwards. Mrs. Corey at last accounts was doing as well as could be expected.

We are glad to note that Mr. S. E. Stevens, who has been on the sick list for several days, has resumed business at the old stand. He suffered from a malarial attack which has greatly reduced the size of his shadow. In fact, he has to stand twice in the same place to make the "least trace, sign or resemblance" of a shadow.

Esquire James Head last Tuesday said his residence in the southeastern part of the city to Mr. Louis Rice. Consideration \$1,250. Mr. Rice will reside there in the future. In a recent conversation, Esquire Head announced his intention of leaving our city, probably going West. He is an old landmark and we regret to see him leave, but such is life.

Snakes to the Front.
Joseph Egloff killed a rattlesnake last Friday in the Company Vineyard that had eight rattles and a button. If venenous serpents are so abundant in "them diggins" the boss editor would suggest that some "latter day" Saint Patrick be induced to invade that vineyard and exercise his banishing powers over the pestiferous reptiles.

Matrimonial Noose.
Madam Rumor is responsible for a report which is being widely circulated and universally believed that Mr. John Salmon and a popular young lady of Nebo will launch out upon the "high seas" of matrimony within a few days. We don't give away "office secrets" and the dear public can employ its leisure moments guessing the name of the young lady.

Back Again.
Frank Kash, who has been absent since last September attending the Massachusetts Institute of Technology returned home last Monday night. Although he has changed a great deal in the way of altitude and avoirdupois, he remains the same, genial, cheerful, good hearted fellow, and was warmly welcomed by innumerable friends. He will sojourn in our midst until September, then return to attend another session at the same institution.

Foot Crushing.
Last Monday evening as Charles Curtis was driving a heavily loaded log wagon along a steep hillside one of the logs slipped and he sprang to the ground to avoid being crushed by it. His feet became entangled in the lines and threw him under the wheel which ran over his foot, badly crushing that member. Fortunately the log was chained in such a manner that it was held upon the log seat or he would have met a fearful death. No bones are broken in his foot, but so severely is it crushed that he will be laid up for some time.

Singular Incident.
Mr. Kenyon Harper who lives about two miles out on the St. Charles road owns a cat that is something out of the ordinary. A few nights since a mink invaded the feline's family and cut the throats of her entire litter of kittens. The hereafter animal repaired to a field near by and returned with a young rabbit, the eyes of which was yet unopened and without the least ceremony adopted the little bunny as her own and lavished more care and attention upon this little alien than its natural mother probably ever did. This strange incident is created by an eye-witness and is greeted with considerable comment in that section.

Harry Williams is visiting relatives near Adams Station.

Welghed and Found Wanting.
Monday evening Judge Cowell adjusted the "trembling balance" and gave citizens DeVylder and Billy Walton a weigh. It seems that one day last week these parties during a business dialogue, used an excess of un-Sunday school language and DeVylder caused Walton's arrest, alleging undue freedom of speech. The trial was one of the most creamy nature. DeVylder admitted that he attempted to flatter Billy by calling him "an old rascal." Billy denied the soft impeachment he admitted that he practiced ways which are dark and tricks not altogether vain when engaged in the uncertain games of seven up and draw poker, but claimed that in his daily walks and business transactions he was as square as the ten commandments. He admitted his poverty of language in not finding a suitable epithet to apply to Mr. DeVylder, and, in this strait, he had flattered the Spanish by calling that gentleman "an old Spanish scoundrel," preceded by an adjective which applied to the front end of a mill pond. The judge levied a tax of "five dollars and trimmings," and the olive branch of peace once more waved over the town.

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Sunday Feet-ures.
Last Sunday was the annual foot-washing at Flat Creek. The day was unusually bright and the largest multitude assembled that has ever gathered in the history of that congregation. Elder Morgan preached a sermon of great length and beauty, to which the most respectful attention was paid, and utmost decorum prevailed among the vast concourse of people who thronged the adjacent groves.

The Ice Cream Supper.
The ice cream supper given by the Christian Endeavor Society at Assembly Hall Tuesday night was well attended and a pronounced success. The hall was beautifully decorated with ferns and flowers, the national colors were profusely displayed, whilst numbers of Japanese lanterns added to the beautiful scene. The tables were dressed in the most attractive manner and cream, sherbet and cake abounded. A gypsy tent stood out in bold relief and five weird maidens who occupied the tent plied their trade of fortune telling. A most prominent feature was the lemonade well presided over by two Rebekahs who were impersonated by Mrs. Cramer and Miss Carrie Crenshaw, who, dressed in ancient Oriental costume, served out the frigid beverage to the thirsty.

Distressing False Report.
Late Saturday evening a report started and spread with the rapidity of wildfire that Grover Long, an eight-year-old son of M. B. Long, was drowned in the lake. Nobody knew the origin of the rumor but everybody believed and repeated it and soon the doleful news had spread over the city. Meanwhile a general rush was made for the lake but no one could be found that knew the slightest concerning him. Great anxiety and distress ensued, but fortunately news soon came that he was in the city alive and well.

Beats the Klondike.
Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages, and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure, would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Free trial bottles at St. Bernard Drug Store. Regular size 50c and \$1.00 Guaranteed to cure or price refunded.

Disappeared.
Claude Fox, a young man about twenty-five years of age, who for several years past has clerked for Crabtree Coal Company, left home last Friday night. His whereabouts remain a mystery. He took his clothing and drew part of his money out of the bank. In a note he left behind he stated that his friends might hear from him again and they might not. No reason whatever can be assigned for his strange action. He was a young man of unusual steady habits, was well known and universally liked. His father Esquire James Fox resides at St. Charles and is known throughout the county. Relatives and friends are greatly distressed over his sudden leaving.

Better Than A Klondike Gold Mine.
Good health is priceless when once lost. When you have a slight cold or cough take Dr. King's New Discovery for Consumption, Coughs and Colds. The return is greater than a half interest in a Klondike gold mine. It will cure you of colds, coughs, and all throat and lung affections. Beware of a slight cold. Sold by St. Bernard Drug Store.

Visited Chickamauga.
Mrs. P. B. Davis returned from Chickamauga Monday night, where she went to see her son, Eldred, who is a member of Company A., from Madisonville. She reports the soldier boys all getting along nicely with the exception of two or three who were slightly under the weather. She said they all seemed very well pleased with camp life, and many expressed their hope of being sent to the Philippines. While there she also saw a nephew of hers, Ernest Hall, son of B. W. Hall, a merchant who formerly resided at Madisonville, but who is now located at Chase, Kan. Ernest is a member of the Twenty-first regiment of Kansas Volunteers, a well equipped regiment.

THE GLORIOUS FOURTH
Will be Celebrated by the A. O. U. W. Lodge of This Place.
A GRAND PICNIC AND BARBECUE
Will be Given—They are Preparing for One of the Largest Crowds That Has Ever Visited Earlington.

The Hopkins Lodge, No. 61, A. O. U. W., of this place, will give a grand picnic and barbecue on the Fourth of July.

As the Fourth of July crowds, in past years, have always been immense, and remembering this, and having in mind the patriotism that has inspired the people of our grand country at this time, the members of this lodge will leave no stone unturned in making ample arrangements to provide for the many thousands of patriotic citizens that will be present on this gala occasion.

Everybody, old or young, wants to celebrate the Fourth this year, as it has never been before, and there is no doubt but that the picturesque Lakeside Park will be one perfect spring mass of humanity from early morn until late at night, while Old Glory will be found here, there and everywhere, with her colors unfurled to the breeze.

There will be meats, barbecued in the old-fashioned way, that will tickle the palate of the most fastidious epicurean, and there will be refreshments, consisting of all the delicacies of the season in great abundance, so all who come, no matter how many, will find plenty to eat and amusements of all kinds for everybody.

Neighboring lodges have a special invitation from Hopkins Lodge to be present and help them celebrate on this patriotic occasion.

For further particulars see large posters. Everybody come!

Do You Read
What people are saying about Hood's Sarsaparilla? It is curing the worst cases of scrofula, dyspepsia, rheumatism and all forms of blood disease, eruptions, sores, boils and pimples. It is giving strength to weak and tired women. Why should you hesitate to take it when it is doing so much for others?

Hood's Pills are the best family cathartic and liver tonic. Gentle, reliable, sure.
The Ice Cream Supper.

The ice cream supper given by the Christian Endeavor Society at Assembly Hall Tuesday night was well attended and a pronounced success. The hall was beautifully decorated with ferns and flowers, the national colors were profusely displayed, whilst numbers of Japanese lanterns added to the beautiful scene. The tables were dressed in the most attractive manner and cream, sherbet and cake abounded. A gypsy tent stood out in bold relief and five weird maidens who occupied the tent plied their trade of fortune telling. A most prominent feature was the lemonade well presided over by two Rebekahs who were impersonated by Mrs. Cramer and Miss Carrie Crenshaw, who, dressed in ancient Oriental costume, served out the frigid beverage to the thirsty.

The evening was one of great enjoyment and pleasure, everyone being delighted with the abundant refreshments and charmed by the captivating music of the gypsy maidens. Attendance was good, and the neat sum of \$30.95 was realized which will be expended in the purchase of books and supplies for the society.

The merit of Hood's Sarsaparilla is literally written in blood. It is traced in the vital fluid of millions of the human race. Its positive medicinal merit and curative power is written upon the hearts and graven upon the minds of thousands of people whom it has cured and given good health.

When there seemed nothing before them but darkness and despair. It cures all diseases arising from or promoted by impure blood by its intrinsic merit. The One True Blood Purifier.

Memorial Service.
The Knights of Pythias will hold memorial services in the Assembly Hall on Tuesday evening, June 14th. Service will begin at 7:30 p. m. Rev. C. C. Hall will deliver an appropriate address for the occasion. A general invitation is extended and a large attendance is certain.

The following is the program: Music. Invocation—Prelate, Theodore Watts. Song. Reading list of names of members of Victoria Lodge No. 84. P. C., Chas. Cowell. Song. Sermon—C. C., Rev. C. C. Hall. Song. Dismissal.

Dr. Otto's Spruce Gum Balsam—the most pleasant and reliable remedy for coughs, colds, croup, and all bronchitis of the throat, chest and lungs. Large bottles, 25c and 50c. Sold by St. Bernard Drug Store.

Visited Chickamauga.
Mrs. P. B. Davis returned from Chickamauga Monday night, where she went to see her son, Eldred, who is a member of Company A., from Madisonville. She reports the soldier boys all getting along nicely with the exception of two or three who were slightly under the weather. She said they all seemed very well pleased with camp life, and many expressed their hope of being sent to the Philippines. While there she also saw a nephew of hers, Ernest Hall, son of B. W. Hall, a merchant who formerly resided at Madisonville, but who is now located at Chase, Kan. Ernest is a member of the Twenty-first regiment of Kansas Volunteers, a well equipped regiment.

A Groomsome Visit.
Whilst roving around in quest of news the "boss" editor dropped into Dr. Chatten's surgical office and his eyes bulged out at the full completeness of this gruesome department. A modern operating table stood in the center of the room, which can be raised, lowered, tilted or extended, giving any position or inclination required. Glass fronted cupboards stood above the room, upon the shelves of which glittered and glistened every kind of modern surgical tools and instruments, the sight of which caused the cold chills to run up the "boss" editor's back like a lizard with a turkey after him. After explaining the use of all the knives, saws, shears, hooks and crooks to the nag man, till his hair stood up as straight as the straws in an inverted broom, the Dr. produced something like a large grip beneath which was strapped a system of copper pans like a knock down dinner bucket. This when mounted upon a trivet and fitted with suitable sieve divisions, finished with a tight fitting top makes a complete sterilizer being heated by a spirit lamp placed at the bottom and is known as "Schimmelbusch's Instrument and Dressing Sterilizer." This and the accompanying grip known as "Gersters Emergency Bag" makes a complete outfit for emergency operations.

By this time the blood of the nag man was so cold that to avoid a congestive chill he put on an overcoat and sat a few hours in the hot sunshine till he had regained his equilibrium.

No other preparation has ever done so many people so much good as Hood's Sarsaparilla, America's Greatest Medicine.

Still Leading.
A stranger visiting our town this week would readily conclude that we were casting up fortifications along our streets against a threatened invasion of the Spanish. But such is not the case. That corps of men so busy with pick and shovel are not fortifying but merely excavating for an extended water main which will cross the railroad and extend up Main street as far as the residence of Frank Arnold. Smaller pipes from this will ramify the streets affording water and fire protection to the citizens of the southern part of our town a pattern for even larger ones to follow.

"For three years we have never been without Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house," says A. J. Patter, with E. C. Atkins & Co., Indianapolis, Ind., and we would as soon think of being without flour as a bottle of this Remedy in the summer season. We have used it with all three of our children and it has never failed to cure—not imply stop pain, but cure absolutely. It is all right, and any one who tries it will find it so. For sale by St. Bernard Drug Store, Earlington; George King, St. Charles; Ben T. Robinson, Mortons Gap.

Don't Wait for the Wagon, Hire a Wheel.
Barnett & Arnold have come up and taken a front seat by adding to their lively business a good stock of bicycles which includes ladies' and gents' wheels and also a "tantrum." Parties who enjoy a spin and who do not own a wheel can indulge in the luxury at reasonable "tiggers" by calling on the above. We will also remark in parenthesis that a wheel doctor who is up to snuff can realize a fortune by locating in that vicinity if he will simply stay on hand and heal the ills that wheels are heir to.

Free Pills.
Send your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of Constipation and Sick Headache. For Malaria and Liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to the stomach and bowels greatly invigorate the system. Regular size 25c per box. Sold by St. Bernard Drug Store.

Home, Sweet Home.
We note that Dr. Mothershead has been daily installed in his new and beautiful residence on Main street, where he can now sit under the shade of his own fig tree with none to molest nor make him afraid.

CASTORIA
For Infants and Children.
The Kind You Have Always Bought
Bears the Signature of *Charles H. Fletcher*

Regeneration.
The way our citizens are using lead and oil is certain to bring about a sky high rise in those articles if they persist in their present course. Thos. Whitford is regenerating his domicile. Mike Nisbet is putting an overcoat on Mr. Jack Sullivan's residence. McFadden and Hunt are painting every thing in sight. From all parts of the city comes the report of painters at work. The deaf and dumb painter, Tom McFadden has just finished up the residence of Wm. McCarty in such unusual brilliancy that the neighbors are congregated around viewing it through smoked glass.

Dr. Otto's Spruce Gum Balsam is a selectible remedy for all kinds of colds, coughs, croup, and all bronchitis of the throat, chest and lungs. Large bottles, 25c and 50c. Sold by St. Bernard Drug Store.

THIRD KENTUCKY
To be Recruited to Full Number at Once.

RECRUITING OFFICERS DETAILED
Chickamauga Park, Ga., June 7.—According to orders received from corps headquarters, the companies of the Third Kentucky regiment will be recruited to 103 men to complete the enlistment.

Col. Smith and staff were kept busy until a late hour last night, detailing recruiting officers and making necessary arrangements. The recruiting officers for the First battalion are as follows: Adj. Getty E. Snell, Sergt. Jack M. Russell, Privates, C. M. Milliken, H. C. Pedigo and Arthur Harrod. Those for the Second battalion are: Lieut. J. K. Dixon, Corporal J. Vincent, Privates W. C. Bruce, Frank Barrington, James Hines, Hugh L. Atkinson, Sergt. A. Chapman, Privates Henry H. Hopkins, E. A. Davis, Frank Prouse. The recruiting officers for the First battalion will enlist men at Bowling Green, Franklin, Russellville, Morgantown and Glasgow; those for the Second battalion at Frankfort, Lexington, Paintsville and Ashland, and those for the Third battalion at Henderson, Owensboro, Madisonville, Paducah, Princeton and Hopkinsville.

"It is the Best on Earth."
That is what Edwards & Parker, merchants of Plains, Ga., say of Chamberlain's Pain Balm, for rheumatism, lame back, deep seated and muscular pains. Sold by St. Bernard Drug Store, Earlington; George King, St. Charles; Ben T. Robinson, Mortons Gap.

Mr. Willis Suggs of Clinton, Ky., and Miss Gracie Bishop, of Madisonville, were married Wednesday afternoon and passed through our city on the four o'clock train enroute to their future home.

Bucklen's Arnica Salve.
The best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures Piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25c per box. For Sale by St. Bernard Drug Store, Earlington; George King, St. Charles; Ben T. Robinson, Mortons Gap.

Mr. and Mrs. J. E. Long and little son, of Nashville, are visiting relatives here.

Mr. E. B. Bourland, of Madisonville, was in the city Saturday evening.

Hundreds of thousands have been induced to try Chamberlain's Cough Remedy, by reading what it has done for others, and having tested its merits for themselves are today its warmest friends. For sale by St. Bernard Drug Store, Earlington; Ben T. Robinson, Mortons Gap; George King, St. Charles.

Bravery.
It is a fine thing to start away to the war with flags flying, bands playing and the multitude cheering godspeed. But all the brave men do not go to the front. It is often as brave a thing to stay at home when there are imperative reasons for doing so as it is to march away to battle.

OUR GUARANTEE \$100.00 IN GOLD.
We will pay One Hundred Dollars in Gold to any person who can prove that Chamberlain's Cough Remedy is not the best cough remedy in the world. It is so pleasant to take. Beware of imitations. Sold by St. Bernard Drug Store.

Homer Taylor, who killed Posey Ball at Henderson, was held over by the examining court, on the charge of manslaughter, and his bond fixed at \$8,000. Being unable to execute said bond, he was sent to jail.

A Summer Outing
Along the North-Western Line (Chicago & Northwestern R'y) can be most enjoyably spent at Milwaukee, Waukegan, Madison, Devil's Lake, Green Lake, Gogebic, Lake Geneva, St. Paul, Minneapolis, Duluth, Marquette, Lake Minnetonka, White Bear, Ashland, Munising, Twentieth Century Train, the Northwestern Limited, electric lighted, daily to St. Paul, Minneapolis and Duluth. Low rate tourist tickets and pamphlets upon inquiry of ticket agents or address A. H. Waggener, T. P. A., No. 7, Jackson Place, Indianapolis, Ind., or W. B. Kniskern, G. P. & T. A., Chicago, Ill.

The length of the public highways of this country is said to be 1,500,000 miles. The amount of freight hauled over them in one year is estimated at 500,000,000 tons, and the cost of carting it \$1,000,000,000, but with really good roads this item could be reduced over one-half.—Good Roads.

Well Machine for Sale.
I have a good Well Drilling Machine, with ten horse power threshing engine, all in good running order which I will sell reasonably.

Strayed or Stolen.
One white cow, with red neck, blazed face, right horn tipped off, about 8 years old, short, heavy built cow, was giving 2½ gallons milk at a milking when she disappeared. Was last at my place in Earlington on Saturday, May 28. Will pay suitable reward for her return.

A Remarkable Dog.
Mr. George Hooser, a switchman in the yard here, owns a dog that is certainly something out of the ordinary. Said canine is about two years old and promptly responds to the name of Nig. About six months since Nig took it into his head to learn railroad. Since that time he has faithfully followed the switch engine every day back and forth in the yards in its ceaseless duty, and when tired of running alongside, he will mount the foot-boards, ride till he has rested and then resume his chase. He knows the whistle of the shift engine as well as he knows his master's voice, and nothing can induce him to either board or quit the engine while it is in motion, thereby displaying better judgment than many brakemen upon the L. & N. system.

Should he miss his master at any time, day or night, he will repair to the yard and seek him, first upon the engine, and then in the yards until he is found.

Nig is peculiar in his tastes. He would starve sooner than eat anything from a plate. His diet is cake, pie and lean meat; bread and fat meat he will not notice. He has to be fed from the hand. His general disposition is social and friendly and he greatly enjoys a romp with friends when not on duty.

It is sad to reflect upon the future of this faithful creature. At some future day he will doubtless be caught beneath the relentless wheels and ground to pieces, thus ending a life of faithful fidelity, if not usefulness.

As poor Nig's name does not appear upon the pay roll of the L. & N., the management of the system would only be doing the square thing to present him a nice brass collar, bearing his name and the name of the great railway system he so faithfully serves.

Mrs. W. W. Etheridge is visiting her parents in Henderson, this week.

JNO. G. MORTON,
BANKER.
The advantages of a bank account are numerous. It is not to business men we are talking; they know all about it—but to salaried men, wage earners and to women. There's safety—if the bank is a good one. There's convenience—the money always ready and out of reach of your own petty squandering too. It is easy to spend small sums when you have a large sum in your pocket.

ST. CHARLES.
Mr. John Robinson spent Sunday at Crabtree.
Mr. J. K. Kash and son, Ben, were in town Saturday.
Mr. Jno. B. Atkinson gave us a pleasant call Saturday.
The strawberry and ice cream supper at Masonic hall Friday was a success. The money was used to help pay for papering the hall.
Mr. Chas. Robinson, of Earlington, spent Sunday with the family of Mr. Geo. King.
Mr. E. J. Sisk and wife visited relatives at Mortons Gap.
Mr. Lee Hart, of Mortons Gap, was here Sunday.
Children's Day exercises convened at Methodist Church Sunday. The programme was as follows:
Beautiful Story—By Vida Rhea.
Faith—By Miss Belle Flake.
The Sunday School boy—By Master Harold Hewlett.
Day by Day—By Miss Nora Faulk.
Song.
Advantage of Sabbath School and Church—By Mr. Geo. Faulk.
What does it take to make a good Sunday School?—By Rev. Jno. D. Cart.
What relation have parents to Sunday School?—By Geo. King.
Music in the Sunday School—By Base Tibbs.
What advantage is literature?—By Rev. Crowe.
Messrs. Jas. and Buck Fox went to Dawson Sunday.
Several of our town people attended the foot washing at Flat Creek Sunday.

Miss Mary Mahoney, of Russellville, is visiting relatives here.

SYRUP OF FIGS
NEVER IMITATED QUALITY.
THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guarantee of the excellence of the remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not grip nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

WATENS

TRADE MARKS
DESIGNS
COPYED & C.

Anyone sending a sketch and description may
quickly ascertain how far their idea from reality
tends to be probably patentable. Communi-
cations are received and looked on by patent
men free of charge. Agency for securing patents,
patents taken through Watson & Co. receive
special prices, without charge, in the

Scientific American.

A handsomely illustrated weekly. Largest cir-
culation of any scientific journal. Terms, 50
cents a year. Four months, \$1. Sold by all newsde-
lers.
